

# Heavy Duty ROUNDTABLE

## *How can collaboration drive innovation forward?*

Hosted by Cummins and BET Motors

We want to bring together the innovation ecosystem of Plug and Play around the question of how we can drive innovation forward in the heavy duty space.

We invite you to join us and are excited for your inside views.

Date	05.06.
Time	05:00 PM
Location	Im Wizemann // Atelier
Meeting Point	Wardrobe (at the back of the Main Stage)
Agenda	<ul style="list-style-type: none"> <li>▸ Introduction by <ul style="list-style-type: none"> <li>- Plug and Play</li> <li>- Cummins</li> <li>- BET Motors</li> </ul> </li> <li>▸ Roundtable Discussion</li> <li>▸ Summary and Next Steps</li> </ul>

### Roundtable 1: Software Defined Trucks

by Cummins

- What is the value of shared industry standards in the SDV context?
- Where can OEMs, Tier 1 suppliers, and integrators collaborate on the development of software defined trucks (SDT) (e.g. middleware, interfaces, OTA)?
- What are the challenges of collaboration in the field of SDT and where do you see a strong potential for success?
- Which areas in SDV software development would most benefit from shared tools or approaches?

### Roundtable 2: Fleet Management Solutions

by BET Motors

- How can shared platforms help to simplify the development and implementation of fleet management solutions?
- How can data sharing enable better fleet management solutions and what data protection or security concerns exist?
- What requirements do fleet managers have for solutions to strengthen their competitiveness in a changing market?
